

Affordable IT Support

PAVELCOMM

Affordable IT Support

Your workday shouldn't be spent stressing over IT issues.

Owners, Executives and Managers should be investing in and integrating technology to increase the productivity and profitability of their business and staff. Pavelcomm supports businesses in a number of ways including assisting your in-house IT Staff on projects, virtual CIO and technology strategy, to managing and maintaining all of your technology needs.

Whether you have an IT department that is responsible for your IT needs or are looking for flat rate IT support, Pavelcomm will come along side you to meet your specific needs, so that you can spend your time working toward bettering your small business and not on tricky technology issues.

A Virtual CIO to Help You Reach Your Goals

PavelComm offers your business a strategic and effective way to implement, design, and deploy technology. We are your virtual CIO who will develop this strategy and help you reach your business goals.

We maintain and manage all of your technology, so that you don't have to worry about it. Family values are important to us, which is why we treat each client like family and get to know them on a personal level. As your virtual CIO, we customize our recommendations and solutions to fit your specific business needs.

Proactive Monitoring Stops Problems Before They Happen

For 24 hours a day, 7 days a week, 365 days a year, we are proactively monitoring your network. If something within the network is not functioning properly, one of our highly trained technicians receives an alert and the problem is fixed before it has the chance to cause any damage.

You will never have to worry about your network experiencing downtime due to technology issues - our proactive monitoring stops issues before they happen. You gain an entire team of professionals for a flat rate fee that is less than the price of one full-time IT professional.

Backups and Business Continuity to Keep Your Business Successful after Disaster

Disasters can happen at any time to any business. With our disaster and backup recovery plan, you can greatly minimize the risk of data loss and downtime.

More than 25% of businesses that suffer data loss or a disaster never recover, but with a disaster and backup recovery plan, your business won't fall into that statistic. Our customized plan gives your business the security of knowing that you will never lose your business because of technology failure or a security breach. Planning for a disaster will ensure business continuity. We even offer the planning and execution of the relocation of your technology.

24/7 Emergency Support to Help You Anytime

You've invested time, money, and talent in building your business - stop guessing when it comes to technology and let us help you reach even greater success - at any time. Our staff provides one-on-one attention to your team, so your technology is always taken care of. Even if you need help after hours, our staff is on call - with the click of a mouse or a phone call, one of our engineers will be available to support you 24/7 and 365 days a year.
